Learning Management System

Mar 2024 - Present

<https://drive.google.com/drive/u/1/folders/1U4FFZlkb48a24o9LKgM0nnFTpEt49wYv>

I have made an LMS(Learning Management System) project using react,nodejs,mongoDB,express,cloudinary,react-router,tailwind css,react-redux,axios,react-hot-toast are used.

These project consists of both frontend and backend In this project I have made the many routes such as login,logout,profile,about us,all course,Home page,register etc,. These are the routes which can be accessed by any person.

The ADMIN specifics routes are create course,add Lecture,,delete Course and etc.

For both admin and user the routes are profile,editprofile. But until now these project is in running state thatswhy it is not fully complete project.
